

# Information sheet for The Dangerous Centre 4

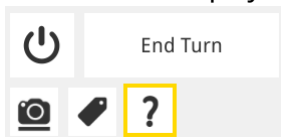

## Game basics

The Dangerous Centre 4 is a turn based strategy game, comparable to games like chess. You can play it against human players or a simple AI (Artificial Intelligence, computer-controlled players).

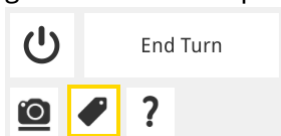

After clicking "Play" in the main menu, you can setup your game, as you like it to play. There are four different nations with varying units.

If you play against other human players, all players use the same computer: After each turn, the next player is able to control his units and make actions.

To learn how to play this game, open and read the in-game help texts by clicking on the help icon:

More information and stats about all units (damage, costs, movement points...) can be found in the in-game-reference. Open the reference by clicking on the reference icon:

Available in-game units:

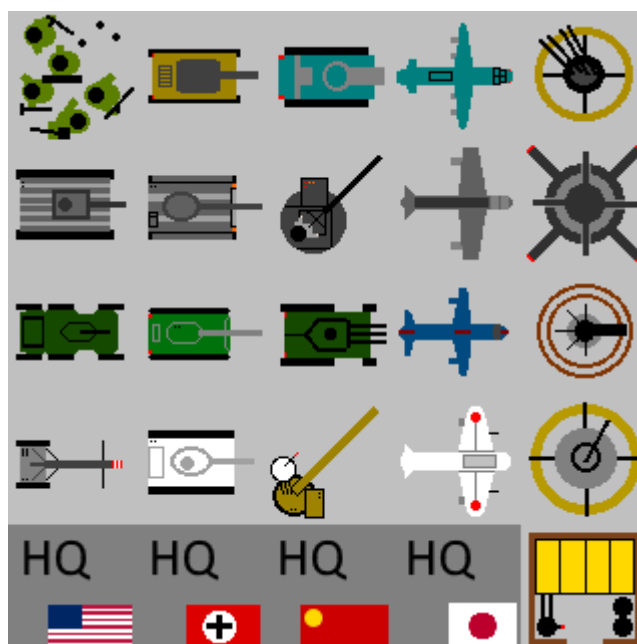

USA

Germany

Russia

Japan

HQs and supply depots
